DRINKS MENU

Our Story...

Welcome to LOOM, a vibrant, modern restaurant where tradition meets innovation.

Our mission is to celebrate local ingredients, weaving them into unexpected, delicious experiences. Just as a loom intertwines threads into beautiful patterns, we take fresh, locally sourced ingredients and craft dishes that tell a unique story on every plate.

At Loom, we draw inspiration from the rich history of the loom itself. A loom is a tool used in the textile industry to weave threads into fabric—an ancient craft that has shaped cultures for many many years. Much like the artistry required to weave fine textiles, our approach to cooking is one of craftsmanship, care, and creativity.

The LOOM represents connection: it brings individual strands together to form something greater, just as we do with our hotel, meeting rooms, homey lobby and crafted menu.

Horgen has a storied history with textiles, and Loom pays homage to that legacy by focusing on the “threads” of our land—our food. Just as Yarn is transformed into fabric through intricate weaving, our team of chefs transforms local, seasonal ingredients into surprising and beautiful culinary creations.

We believe that food, like fabric, is at its best when it is carefully curated, sustainable, and rooted in the places it comes from. Whether you’re a longtime foodie or an adventurous newcomer, Loom invites you to be part of this story, to taste the threads of our region’s bounty, and to discover the artistry that goes into every bite.

Our Coffee..

At Loom, we take pride in serving Destas Coffee, a choice that reflects our commitment to exceptional taste and sustainable practices.

Destas Coffee sources its beans directly from high-altitude regions of Ethiopia, where rich volcanic soil and ideal growing conditions produce some of the finest coffee in the world. Each bean is harvested with care by smallholder farmers dedicated to traditional, eco-friendly farming methods, ensuring both quality and a positive impact on the communities behind every cup.

The roasting process at Destas is a craft in itself, carefully calibrated to highlight the unique flavor profiles of each region. The result is a perfectly balanced cup that combines rich, full-bodied tones with delicate floral and fruity notes. Whether you're savoring an espresso or a creamy latte, you'll notice the distinct character that only Destas Coffee can offer – an aromatic experience that brings Ethiopian heritage and passion for quality to every sip.

At Loom, we believe that coffee should be more than a drink; it should be a journey in flavour and culture. Discover the essence of Destas Coffee, where every cup tells a story from farm to table.
